Brajak Vitberg is an art and design studio,
founded by two architects from Ljubljana, Slovenia in 2018.

We are striving to design craft elements and make them
timeless through experimental designing process.

The studio creates a range of products from handmade and
limited small series to one piece unique products,
inspired by materials and forms that create incomplete perfection.

A photograph of a pool deck. In the foreground, a colorful, abstract rug with shades of purple, teal, and grey is laid out on a light-colored stone tile surface. To the right, a clear glass of water is partially visible, with its reflection on the rug. The background shows the blue water of a swimming pool. The text "BRAJAK VITBERG" is overlaid in the center of the image.
